Regrettably I can not attend the meeting.

However I feel this is a matter which needs more scrutiny and attention...The chronic disruption of our lives, the proximity of our homes to each other, the continual decrease in side-yard requirements have us living as close to one another as one might in lesser neighborhoods of any major city.

The noise factor has increased incrementally through the years as more people have become full time residents...

It would also be my hope that attention might be given to the subject of power washers. The noise is equivalently hideous, and in some cases more prolonged. My father would have called all of the above "orchestral din".. We deserve MORE....

Thank you for your consideration.

Jay-

Since you have already done the back up for this item, how do you want to handle this one?

Thank you.

To whom this may concern:

I would like to request a ban on leaf blowers which are create noise pollution in our town.

At worst there should be very limited hours which they can be operated in residential neighborhoods.

Harvey
