Information for Business & Administrative Committee Meeting on:
December 11, 2020

To: Business & Administrative Committee

From: Jay Boodheshwar, Deputy Town Manager

Re: Summary of Current and Potential Parking Regulations in County Road Corridor

Date: December 7, 2020

STAFF RECOMMENDATION

Staff recommends the Business and Administrative Committee (BAC) of the Town Council review the summary of current and potential parking regulations in the County Road Corridor provided below and attached, seek community input, and provide direction to staff.

GENERAL INFORMATION

At the November 3, 2020, BAC meeting, staff provided a comprehensive overview of existing parking regulations and preliminary recommendations for all commercial areas of the Town. After much discussion, it was determined that the next step of the committee's review would be to receive community input from both residents and members of the business community. It was determined that three separate meetings should be scheduled to focus individually on the County Road Corridor, Royal Poinciana Way, and the Worth Avenue Areas.

The County Road Corridor meeting is the first area of review, which is scheduled for December 11 and will include some overlap with the Royal Poinciana Way and Worth Avenue areas. *(For informational purposes, the Royal Poinciana Way Area meeting will be held on January 7, 2021, and the Worth Avenue Area meeting will be held on January 26, 2021.)*

The County Road Corridor consists of N. County Road from the intersection of Wells Road to Royal Poinciana Way and S. County Road from the intersection of Royal Poinciana Way to Hammon Avenue. The 100 and 200 blocks of the east/west streets along the corridor are included. Attachment A includes a spreadsheet of preliminary recommendations for the commercial streets in the County Road Corridor, relative to the underlying regulation as well as the areas where the placard parking program can be expanded. The spreadsheet includes a list of related streets, number of parking spaces, the current regulation, the proposed regulation (if any change), the current placard program, and proposed placard program changes (if any). As outlined, the proposed regulation changes would modify time limited free parking (1 or 2 hour) on certain streets to paid parking (kiosks and Parkmobile) and the proposed placard program changes would expand existing placard areas, implement new ones and eliminate one area.

Attachments B and C were prepared to help visualize the proposed changes outlined in the Attachment A spreadsheet. Attachment B includes aerial maps indicating the existing (green) paid parking areas within the Town, as well as the areas proposed for new paid parking (yellow). Attachment C includes aerial maps indicating existing (green) placard parking areas, as well as the areas proposed for expansion (yellow).
